

US History Research Paper – Notecards

The essence of any research paper is...research. To that end, you will read a variety of sources and take notes on them, which you will then use as evidence to prove your thesis. You will need to produce at least 50 notecards as part of this project.

Requirements for each notecard

- Card title
- Source
- URL if website
- Page number(s)
- Direct Quotations
- My Ideas

The screenshot shows the 'New Notecard' window with several red annotations. The 'Title (Main Idea)' field contains the text 'You may want to add title last'. The 'Source' dropdown is set to 'None', with a note 'Always include page numbers when provided'. The 'URL' field contains 'For internet sources'. The 'My Tags' dropdown is set to 'Select a tag...', with a note 'Use tags to keep your notecards organized'. The 'Paraphrase or Summary' field contains the word 'Optional'. At the bottom right, there is a note 'Be sure to save your work' with an arrow pointing to the 'Save' button.

Title (Main Idea) You may want to add title last

Source None Select source Always include page numbers when provided

URL For internet sources

My Tags Select a tag... Use tags to keep your notecards organized

Paraphrase or Summary Optional

The screenshot shows the 'My Ideas' window. The main text area contains the instruction 'This screen must be filled' followed by 'Use this space to:' and a bulleted list: '• Include how and why you want to use this information' and '• Ask questions raised by the information'. At the bottom right, there is a note 'Be sure to save your work' with an arrow pointing to the 'Save' button.

My Ideas How do I do this?

This screen must be filled

Use this space to:

- Include how and why you want to use this information
- Ask questions raised by the information
